Born along the banks of Río de la Plata more than a century ago, ARGENTINE TANGO is among the most dynamic and intoxicating dances ever created. In its social form, as we explore it, TANGO is completely improvised – two bodies, intimately connected, co-creating a unique and spontaneous expression in time and space. No prior dance experience is necessary – just a willingness to open yourself to this potent "kinetic language" and the distinctive music that drives it, and a desire to begin exploring the many possibilities that TANGO has to offer ... subtle, complex, elegant and profound.

**"Drop in" any night, with or without a partner.** Please bring shoes with leather or other hard soles that slide easily – shoes with laces or secure straps are recommended. Women may wear either flat shoes or heels.
